## Samsung Knox Suite

Samsung Knox Suite bundles our most popular Knox management solutions, for a simplified, comprehensive approach to managing devices through their lifecycle.

### Knox Platform for Enterprise

Knox Platform for Enterprise (KPE) is a military-grade mobile solution for IT admins to manage and secure Samsung phones, tablets and watches for business.

### Knox Mobile Enrollment

Knox Mobile Enrollment offers automated EMM enrollment out of the box. IT admins can add thousands of Samsung devices at once, without having to manually enroll each one. Users just power on their devices and connect to the network to enroll to the enterprise mobility management (MDM/EMM) provider.

### Knox Manage

This cloud-based EMM solution can manage any Android 4.4+, iOS 8+ or Windows 10 device, and offers expanded management and security features on Samsung devices integrated with the Knox platform.

### Knox E-FOTA

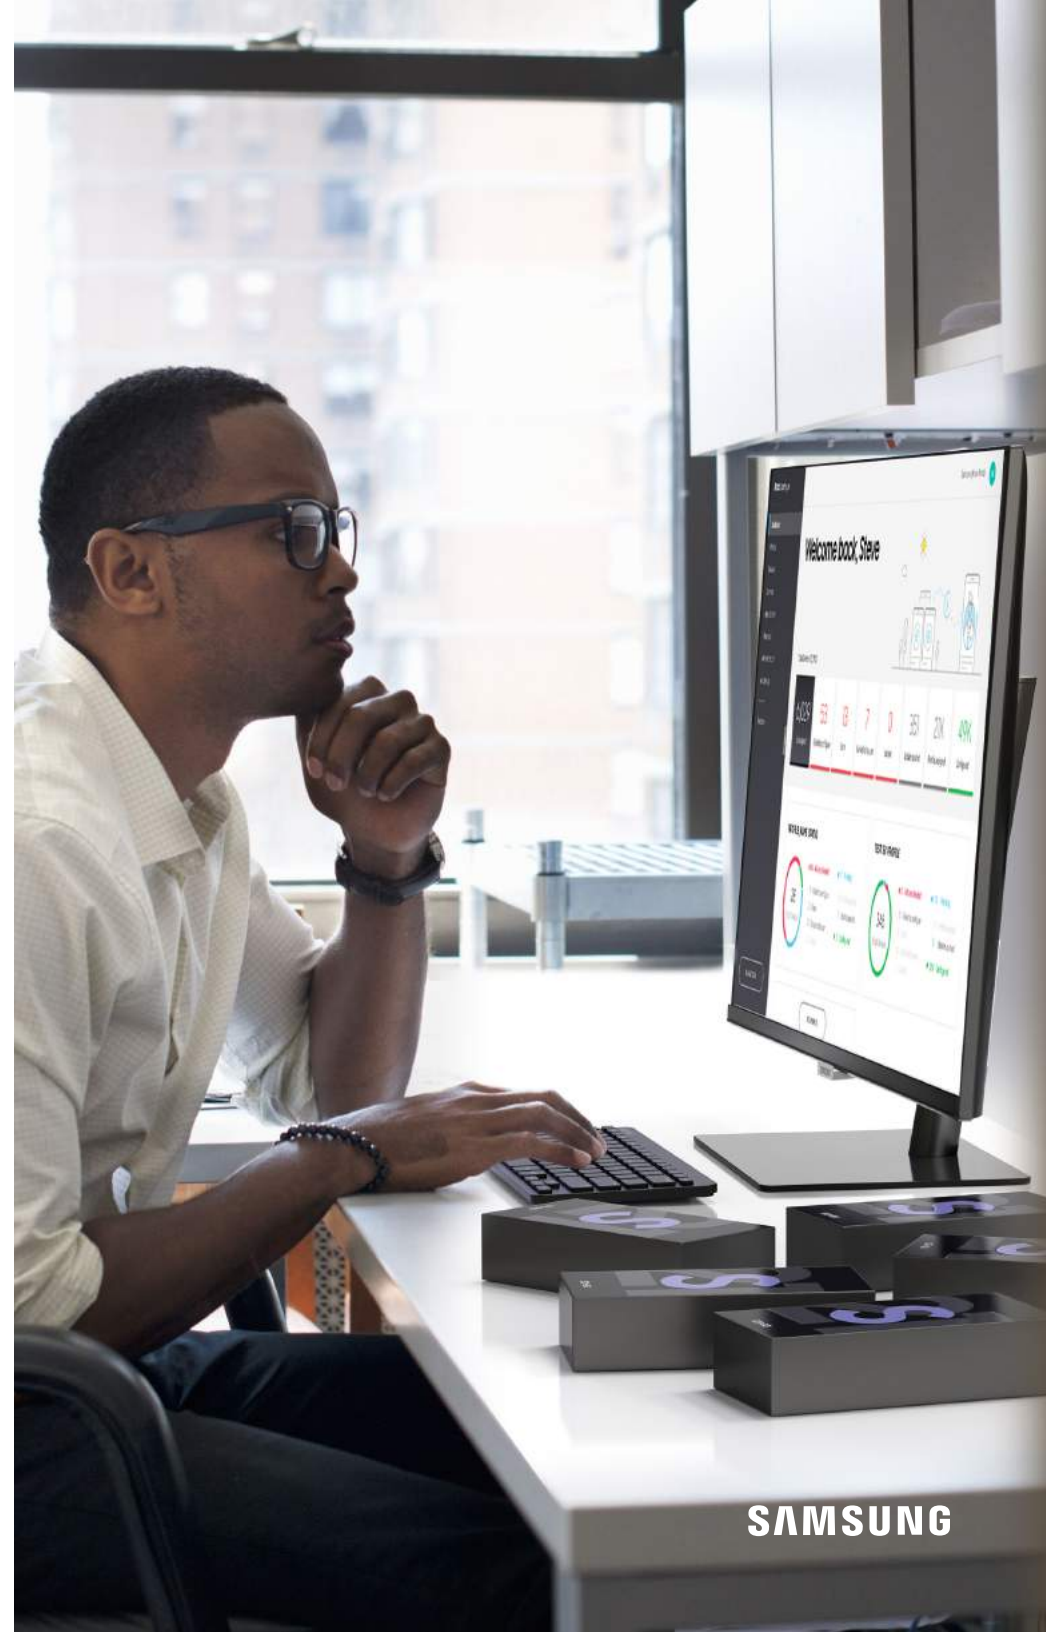

Knox Enterprise Firmware-Over-The-Air (E-FOTA) ensures the latest security patches are deployed to devices on schedule. IT admins can test updates before deployment, ensuring compatibility between in-house apps and new OS versions.

### Knox Asset Intelligence

Knox Asset Intelligence is a business intelligence tool that delivers actionable data-driven insight into Samsung mobile device fleets at scale. You'll have a clear and deep understanding of devices, including battery usage, app usage, connectivity, device logs and more. Be proactive with Knox Asset Intelligence, and be more productive.
