

AWS Enterprise Cloud Migration

Accelerate your cloud migration with WWT

Migrating and
modernizing
should be
fast and easy

Accelerate your path to innovation through WWT, leveraging WWT's services expertise as an AWS Partner Network (APN) Advanced Consulting Partner.

Success with WWT

WWT utilizes an innovative methodology that leverages proven AWS Programs to expedite the cloud migration process. This approach not only makes migrations more cost-effective but also ensures their success.

Structured and comprehensive approach

WWT's strategic approach to cloud migration emphasizes a structured methodology that mitigates risks and addresses potential challenges proactively. By aligning our methodology with the MAP standards, we can provide a comprehensive and robust migration solution that caters to your specific needs while also ensuring that the project is executed in a timely and cost-effective manner. This approach allows us to deliver a successful cloud migration that meets the stipulated deliverables and timeline, while also incorporating best practices for an efficient and effective migration process.

How MAP Works

AWS's Cloud Migration Program helps de-risk, simplify, and accelerate smart cloud migrations. Most Cloud Migration Projects are structured into three main phases:

Assess Your Readiness:

This phase focuses on evaluating your readiness to migrate, identifying the best-fit workloads for the cloud, and calculating the potential costs savings and operational benefits.

Mobilize Your Resources:

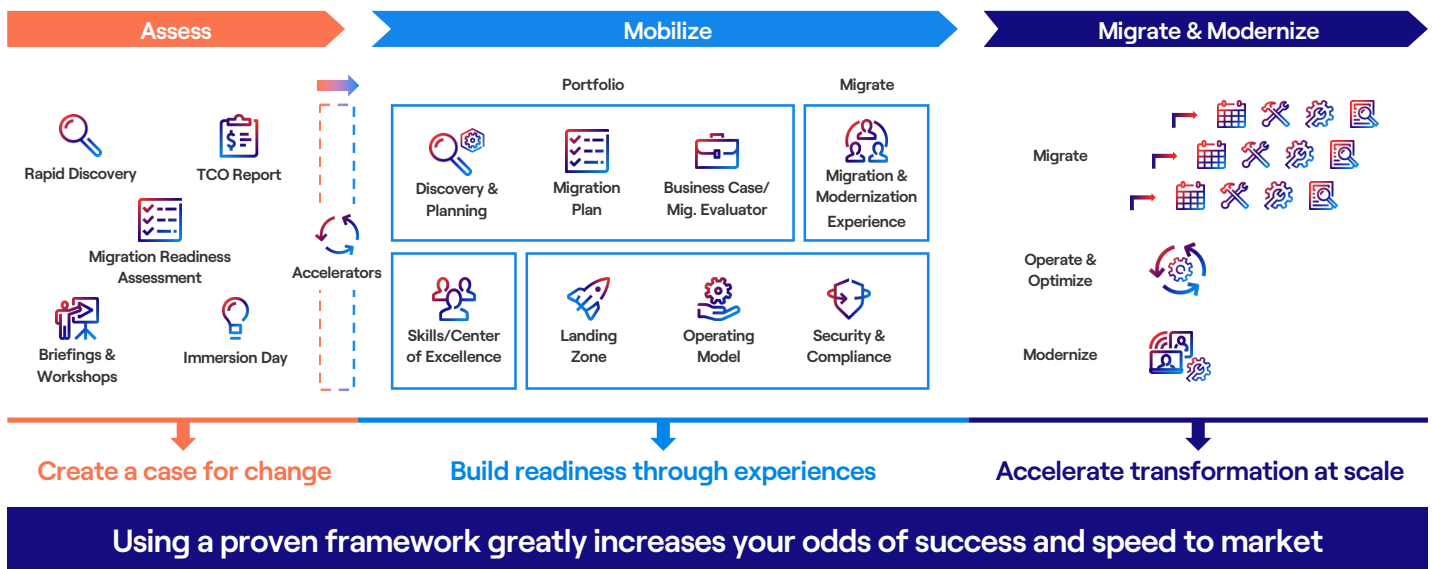

Here, our focus shifts to setting up the resources, tools, and processes needed to accelerate and streamline your cloud migration. The key objective is to address any gaps identified during the Assess Phase.

Migrate & Modernize:

The objective of this phase is to move workloads to AWS while optimizing and transforming them to take full advantage of cloud-native capabilities. This phase allows your business to innovate and grow efficiently.

AWS MAP Migration Framework

Cloud efficiency has never been easier

Wherever you are on your cloud journey, WWT is here to support you at every stage.

Let us help you focus on your organization's key initiatives, free up valuable time, and empower your team to prioritize what truly matters in the cloud.
